

## **‘ABOUT ME’**

### **INTRODUCTION**

Hello! I am Shalini Thakur, from Rajbiraj. I am 23 years old. Currently, i live in sankhamul, new Baneshwor, pursuing my bachelor’s degree in computer engineering from universal engineering and science college which is affiliated to pokhara university. Nowadays I am trying to learn something new related to my study i.e python with AI by Mr. Gagan puri. Beyond academics, I'm highly interested in arts, sports, and music.

### **MY FAMILY**

I belong to a joint family, it's been some years since my father and uncle got separated but still we live under the same roof. My grandpa has his own business. For 45 years, my grandpa has been running a family business in medical healthcare(pharmacy). My father works as a senior H.A and mom works in an INGO . Also my parents run another small medical shop as a part time.

### **MY HOBBIES**

My hobbies are very inclined towards arts, music, paintings, sports, sometimes dancing too but i am mostly passionate towards singing. As i always stayed in a hostel so when i visit my home, i love to cook for my family which is also one of my hobbies and i love to spend time with my siblings. My other hobby is watching movies alone.

### **MY DEEP SECRETS**

Note: secrets need to be secret so then nobody can have their advantages. This is just a task so never mind what I have mentioned as my deepest secret. When I was in my teenage years I ran from my house just to know if my parents could find and take me back with them. Let me clear you i was never a brilliant student in maths so once what i did is after the maths examination, i stole my own paper because i knew i will get just some 5-10 marks so that my teacher couldn’t find the paper, And i can act like if there is teacher’s mistake. In 7th sem I went trekking with my friends but I lied to my parents by saying it's not a trekking, it is a college tour where students just need their own money to spend. There are hundreds of my secrets but unfortunately I can't mention them here.

**THANK YOU.**
